UNDERSTANDING AGING & YOUR TREATMENT JOURNEY

WHAT CAUSES AGING?

Aging is a natural process that affects everyone. Over time, our skin loses collagen, elastin and hydration, leading to fine lines, wrinkles, sagging and loss of volume.

FACTORS THAT ACCELERATE AGING

UV EXPOSURE
Sun damage breaks down collagen and causes premature aging

HORMONAL CHANGES
Hormones decrease collagen production, especially after 25 years

POLLUTION & TOXINS
Free radicals damage skin cells and cause oxidative stress

GENETICS
Your genes influence skin structure, aging speed and wrinkle depth

LIFESTYLE HABITS
Poor diet, lack of sleep, smoking and stress speed up aging

FACIAL MOVEMENTS
Repeated expressions cause dynamic wrinkles and fine lines

WHY IS AGING DIFFICULT TO STOP?

NATURAL PROCESS
Aging is inevitable, but we can slow it down

COLLAGEN DECLINES
Collagen production decreases by 1% each year after 25

THINNER SKIN
Skin becomes thinner, drier and loses its ability to repair itself

CELLULAR SLOWDOWN
Cell turnover slows down, leading to dull and uneven skin

LIMITED SELF-REPAIR
Yein's natural repair ability weakens with age

WHAT MAKES OUR ANTI-AGE PROGRAM DIFFERENT?

YOUR ANTI-AGE TREATMENT JOURNEY – STEP BY STEP

1. CONSULTATION & SKIN ANALYSIS
We analyze your skin, understand your goals and create a personalized treatment plan.

2. PREPARE & CORRECT
We prepare your skin and correct underlying issues to create the perfect foundation for anti-aging.

3. REJUVENATE & STIMULATE
Advanced treatments stimulate collagen, improve elasticity and restore youthful volume and glow.

4. LIFT, SCULPT & RENEW
We target sagging, fine lines and wrinkles to lift, sculpt and renew your skin structure.

5. MAINTAIN & ENHANCE
We guide you with home care and regular maintenance to preserve your results long-term.
